

**REMARKS**

In a Notice to File Corrected Application Papers dated June 3, 2010, the Examiner objected to the originally filed Specification for inclusion of a non-compliant illustration.

Applicants have amended the Specification and Drawing to create a new figure containing the objected to illustration, and deleted the illustration from the Specification. Applicants have further amended the Specification to include a description of the newly added figure in the "Brief Description of the Drawings", and reference the newly added figure (rather than the embedded illustration) in the text. Applicants have further provided Replacement Sheets for all figures, which, among other things, include updated page numbering.

The subject matter of the newly added figure is contained in the originally filed Specification. No new matter is being introduced.

In view of the foregoing, applicants respectfully request entry of this amendment to correct any outstanding informalities. In addition, the Examiner is encouraged to contact applicants' attorney by telephone if there are outstanding issues left to be resolved.

Respectfully submitted,

JOSEPH P. BIGUS, et al.
